# AMERICAN SAMOA COMMUNITY COLLEGE <br> ACADEMIC AFFAIRS DIVISION <br> ACADEMIC PROGRAM REVIEW <br> Fall 2014-Spring 2015 

## Mission

The mission of the American Samoa Community College is to foster successful student learning by providing high quality educational programs and services that will enable students to achieve their educational goals and to contribute to the social, cultural, political, economic, technological, and environmental well-being of American Samoa.

To fulfill this mission, the College, as an open admissions, United States accredited, Land Grant institution, provides access to bachelor and associate degrees and certificate programs of study. These programs prepare all students including those who are educationally underserved, challenged, or non-traditional for:

1. Transfer to institutions of higher learning
2. Successful entry into the workforce
3. Research and extension in human and natural resources
4. Awareness of Samoa and the Pacific.

## Institutional Core Values \& Learning Outcomes:

Through the missions of our programs and services, we hold ourselves accountable to the following:

- Student Centeredness: ASCC commits to provide high quality programs and services focusing on student learning;
- Respect for Diversity: ASCC embraces individuality and appreciation of global perspectives and viewpoints that enhance quality of life;
- Collaboration and Teamwork: ASCC promotes a sound environment for networking opportunities through effective communication, partnerships, and growth.
- Respect for Tradition and Culture: ASCC embraces cultural heritage, traditions, language, and customs and their impact in education and research.
- Lifelong Learning: ASCC encourages continuation of learning and provides pathways for personal, ethical, and professional growth.

## Important Academic Principles to Reference (Institutional Program Review, 2002-2004)

1. An academic program review will be systematically conducted by all academic department/program every two years.
2. The two-year program review cycle will specifically review/assess all approved academic programs/departments identified in the general catalog.
3. The organization of curriculum and instruction is based on the following:
a. That the review /assessment of ASCC academic programs begins with the institutional core values \& learning outcomes defined by the ASCC mission statement, "...the ASCC provide high quality educational programs and services that will enable students to achieve their educational goals and to contribute to the social, cultural, political, economic, technological, and environmental wellbeing of American Samoa." Specifically, educational programs that
> Transfer to institutions of higher learning
> Successful entry into the workforce
$>$ Research and extension in human and natural resources
$>$ Awareness of Samoa and the Pacific.
b. The academic department/programs are specifically aligned to the institutional core values \& learning outcomes defined by the mission statement.
c. The academic programs reflect an understanding that, learning is a complex process. Learning is multidimensional, integrated and is achieved at an appropriate level of performance over time. Learning includes not only that students know, but what they can do with what they know. Learning involves more than just knowledge and abilities, it also includes values, attitudes, and ways of thinking that will facilitate academic success in and out of the classroom.
d. The academic programs reflect the understanding of the need to effectively plan, develop, and implement a diverse array of instructional methods and pedagogy that go beyond the traditional classroom instruction setting.
e. That academic programs utilize the aforementioned comprehensive definition/approach to learning in order to
i. Establish a more complete and accurate picture of the desired types of learning has to be achieved.
ii. The degree or level of competence in which those learning are to be performed;
iii. Research plan, and develop use of an appropriate repertoire of instructional methods to successfully create the necessary conditions where students can increase and achieve outcomes identified above;
iv. Employ an assessment plan tat systematically assess the efficacy of an academic program's ability to compare educational performance in relation to the desired academic goals/outcomes.
4. Program review/assessment alone changes little. Program review/assessment must be linked to a larger set of conditions that promote change, and contributes to ASCC's ability to develop an "culture" where the quality of teaching and learning is valued and continually worked at.

## Criteria for the Academic Program Review

Every effort was made to standardize the method used in collecting data and information for the review. The academic program review instrument was developed to include these major criteria: (1) Input Measures (2) Program Operations and (3) Output Measures.

This process involves faculty, administrators, and staff in...
a) gathering information about academic programs/departments,
b) reviewing and analysis of information
c) combining all information in making judgments about overall program quality and making recommendations for improvements, and
d) A follow up to ensure that all academic programs are fully supported in its efforts to providing quality academic programs/courses.

The academic program review instrument was developed to include these major criteria: (1) Input Measures (2) Program Operations and (3) Output Measures. Input measures are institutional resources provided for a program of study to achieve stated mission and outcomes. Input measures address area of facilities, equipment, materials, teaching methods, teacher qualifications, and faculty professional development. Output measures are specific student characteristics developed after the completion of an academic program of study or course. The areas identified are tracking, course and degree/certificate, retention/completion rates, and the assessment of student learning outcomes. The Program Operation criteria required information that is directly related to the instructional program of the College. The instrument (curriculum grid) was designed to obtain information on scheduling history. The reports should indicate the number of courses that were offered during each semester of the cycle by each academic department.

## MAJOR ACCREDITATION STANDARDS TO BE ADDRESSED BY ACADEMIC PROGRAM REVIEW PROCESS

## Standard II: Student Learning Programs and Services

The institution offers high-quality instructional programs, student support services, and library and learning support services that facilitate and demonstrate the achievement of stated student learning outcomes. The institution provides an environment that supports learning, enhances student understanding and appreciation of diversity, and encourages personal civic responsibility as well as intellectual, aesthetic, and personal development for all of its students.

## II. A. Instructional Programs

The institution offers high quality instructional programs in recognized and emerging fields of study that culminate in identified student outcomes leading to degree, certificates, employment, or transfer to other higher education institutions or programs consistent with its mission. Instructional programs are systematically assessed in order to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes. The provisions of this standard are broadly applicable to all instructional activities offered in the name of the institution.
II.A.1. All instructional programs, regardless of location or means of delivery, including distance education and correspondence education, are offered in fields of study consistent with the institution's mission, are appropriate to higher education, and culminate in student attainment of identified student learning outcomes, and achievement of degrees, certificates, employment or transfer to other higher education programs.
II.A.2. Faculty including full time, part time, and adjunct faculty, ensure that the content and methods of instruction meet generally accepted academic and professional standards and expectations. Faculty and others responsible act to continuously improve instructional courses, programs, and directly related services through systematic evaluation to assure currency, improve teaching and learning strategies, and promote student success
II.A.3. The institution identifies and regularly assesses learning outcomes for courses, programs, certificates and degrees using established institutional procedures. The institution has officially approved and current course outlines that include student learning outcomes. In every class section students receive a course syllabus that includes learning outcomes from the institution's officially approved course outline.
II.A.4. If the institution offers pre-collegiate level curriculum, it distinguishes that curriculum from college level curriculum and directly supports students in learning the knowledge and skills necessary to advance to and succeed in college level curriculum.
II.A.5. The institution's degrees and programs follow practices common to American higher education, including appropriate length, breadth, depth, rigor, course sequencing, time to completion, and synthesis of learning. The institution ensures that the minimum degree requirements are 60 semester credit hours or equivalent at the associate level, and 120 credits or equivalent at the baccalaureate level.
II.A.6. The institution schedules courses in a manner that allows students to complete certificate and degree programs within a period of time consistent with established expectations in higher education
II.A.7. The institution effectively uses delivery modes, teaching methodologies and learning support services that reflect the diverse and changing needs of its students, in support of equity in success for all students.
II.A.8. The institution validates the effectiveness of department-wide course and/or program examinations, here used, including direct assessment of prior learning. The institution ensures that processes are in place to reduce test bias and enhance reliability.
II.A.9. The institution awards course credit, degrees and certificates based on student attainment of learning outcomes. Units of credit awarded are consistent with institutional policies that reflect generally accepted norms or equivalencies in higher education. If the institution offers courses based on clock hours, it follows Federal standards for clock-to-credit-hour conversions
II.A.10. The institution makes available to its students clearly stated transfer-ofcredit policies in order to facilitate the mobility of students without penalty. In accepting transfer credits to fulfill degree requirements, the institution certifies that the expected learning outcomes for transferred courses are comparable to the learning outcomes of its on courses. Where patterns of student enrollment between institutions are identified, the institution develops articulation agreements as appropriate to its mission.
II.A.11. The institution includes in all of its programs, student learning outcomes, appropriate to the program level, in communication competency, information competency, quantitative competency, analytic inquiry skills, ethical
reasoning, the ability to engage diverse perspectives, and other program-specific learning outcomes.
II.A.12. The institution requires of all of its degree programs a component of general education based on a carefully considered philosophy for both associate and baccalaureate degrees that is clearly stated in its catalog. The institution, relying on faculty expertise, determines the appropriateness of each course for inclusion in the general education curriculum, based upon student learning outcomes and competencies appropriate to the degree level. The learning outcomes include a student's preparation for and acceptance of responsible participation in civil society, skills for lifelong learning and application of learning, and a broad comprehension of the development of knowledge, practice, and interpretive approaches in the arts and humanities, the sciences, mathematics, and social sciences.
II.A.13. All degree programs include focused study in at least one area of inquiry or in an established interdisciplinary core. The identification of specialized courses in an area of inquiry or interdisciplinary core is based upon student learning outcomes and competencies, and include mastery, at the appropriate degree level, of key theories and practices within the field of study.
II.A.14. Graduates completing career-technical certificates and degrees demonstrate technical and professional competencies that meet employment standards and other applicable standards and preparation for external licensure and certification.
II.A.15. When programs are eliminated or program requirements are significantly changed, the institution makes appropriate arrangements so that enrolled students may complete their education in a timely manner with a minimum of disruption.
II.A.16. The institution regularly evaluates and improves the quality and currency of all instructional programs offered in the name of the institution, including collegiate, pre-collegiate, career-technical, and continuing and community education courses and programs, regardless of delivery mode or location. The institution systematically strives to improve programs and courses to enhance learning outcomes and achievement for students.

## THE PROCESS

The Academic Program Review (APR) Manual was revised and approved in March 2015 by the ASCC Standing Committee. A review of all questions, charts, and matrixes was shared and reviewed by the Assessment Planning General Committee (APGC), Assessment Planning Committee (APC), and the Curriculum Committee. After the review and approval of the APR manual from ASCC Standing Committee, the curriculum chairperson disseminated the APR Template in April 2015 to all Academic departments/ programs and divisions in to complete the questionnaire by May 2015.

The Dean and the Associate Dean of Instruction/Academic Affairs Division began its initial dialog in August 2014 on the importance and the need to conduct a thorough and accurate review of all Academic programs. The academic program review (APR) was identified from the 2003, 2008, 2009 and 2010 Instructional Program Review Survey and the Academic Program Review Manual that was designed by the previous Dean and Associate Dean of Instruction in 2003.

Seventeen Academic departments/programs: Agriculture Community \& Natural Resources (ACNR), Business (BUS), Criminal Justice (CJ), College Life planning (CLP), English Language Institute (ELI), Fine Arts (FAD), Health \& Human Services (HHS), Language \& Literature (ENG \& LIT), Mathematics (MAT), Nursing (NUR), Physical Education (PED), Samoan Studies Institute (SSI), Science (SCI), Social Science (SOC. SCI), Teacher Education (TED) Reserve Officer Training Corps (ROTC), and Trades \& Technology Division (TTD).

The data presented in the following pages are provided to assist in the alignment of planning to enrollment and Student Achievement Standards. The data collected covers Fall 2012 to Fall 2014 results with the exception of the enrollment count which cover 2007 to 2014.

## Enrollment Trends

| Year | Fall | Spring | Summer |
| :---: | :---: | :---: | :---: |
| $\mathbf{2 0 0 7}$ | 1767 | 1494 | 1100 |
| $\mathbf{2 0 0 8}$ | 1806 | 1621 | 1149 |
| $\mathbf{2 0 0 9}$ | 2188 | 1631 | 1367 |

| $\mathbf{2 0 1 3}$ | 1488 | 1262 | 803 |
| $\mathbf{2 0 1 4}$ | 1276 | 1220 | 711 |

## Notes for Fall Enrollment:

- Last enrollment peak was in Fall 2010.
- Biggest increase in enrollment was in Fall 2009 which increased by 21\% from Fall 2008.
- Enrollment has decreased by a total of $41 \%$ in Fall 2014 since Fall 2010.
- The biggest decline was recently in Fall 2014 where enrollment fell 14\% from Fall 2013.

## Notes for Spring Enrollment:

- Last enrollment peak was in Spring 2011.
- Biggest increase was in Spring 2010 which increased 10\% from Spring 2009.
- Enrollment has decreased by a total of 34\% in Spring 2014 since Spring 2011.
- The biggest decline happened in Spring 2013 when enrollment dropped 23\% from Spring 2012.

## Notes for Summer Enrollment:

- Last enrollment peak was in Summer 2009.
- Biggest increase was in Summer 2009 which increased 19\% from Summer 2008.
- Enrollment has decreased by a total of $47 \%$ in Summer 2014 since Summer 2009.
- The biggest decline happened in Summer 2012 where enrollment dropped 33\% from Summer 2011.

## Student Achievement Standards

The data which follows was gathered for the institution to set standards for Student Achievement.
Percentages were set using past data from Fall 2012 to Fall 2014, covering the 2012 catalog year. So far, the institution has set rates for three of the approved standards which are presented below.

## Standard 1: Developmental Courses

The successful Completion of highest developmental English and Math Courses which transition students into college readiness.

Developmental courses encompass remedial reading, writing and mathematics. This is the percentage of students who successfully completed the highest level of Developmental Reading (ENG 90), Developmental Writing (ENG 91), and Developmental Math (MAT 90) per semester. This rate has been set and approved by the institution at $70 \%$ of students passing developmental exit courses per semester.

|  | ENG 90 | ENG 91 | MAT 90 |
| :---: | :---: | :---: | :---: |
| Sum. 12 | $83 \%$ | $85 \%$ | $74 \%$ |
| Fa. 12 | $67 \%$ | $77 \%$ | $1 \%$ |
| Spr. 13 | $62 \%$ | $61 \%$ | $55 \%$ |
| Sum. 13 | $62 \%$ | $67 \%$ | $77 \%$ |
| Fa. 13 | $69 \%$ | $61 \%$ | $67 \%$ |
| Spr. 14 | $64 \%$ | $59 \%$ | $56 \%$ |
| Sum. 14 | $68 \%$ | $83 \%$ | $61 \%$ |
| Fa. 14 | $81 \%$ | $68 \%$ | $65 \%$ |

## Standard 2: Gateway Courses

The successful completion of college level English and Math Courses as required by all degrees to transition into Gen-Ed and Program Requirements

Gateway Courses covers college level reading, writing and mathematics. The data in the table below summarizes rates presented to institution to set standard-2. Summative data (total percent of students who completed gateway courses with a "C" or better), and formative data (assessment of learning outcomes) for Spring and Summer 2014 were used as a baseline. The rate for this standard has been set at $\mathbf{7 2 \%}$ of students who complete Gateway courses with a "C" or better.

| Gateway Courses |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Course | Summative Data |  |  | Formative Data |  |  |  |  |

| Total Average |  | 2574 | 71\% | 449 | 15\% | 35\% | 49\% | 84\% |

## Standard 3: Degree Program Requirements

The successful Completion of Gen-Ed, Core Foundational and Co-Foundational courses required by a Degree program.

This standard covers all General Education, Core Foundational and Co-Foundational courses as listed in the catalog. The following tables summarize rates presented to institution to set standard-3. Summative data (total percent of students from Fall 2012 to Fall 2014 who completed courses with a "C" or better), and formative data(Assessment of learning outcomes) for Spring and Summer 2014 were used as a baseline. The rate for this standard has been set at 75\% for General Ed, 80\% for Core Foundational, and $\mathbf{9 0 \%}$ for Co-Foundational students who complete courses with a "C" or better. Overall for Program Requirements, the rate has been set at $\mathbf{8 0 \%}$ of students who complete all program requirements with a
"C" or better per semester. The table for Co-Foundational does not show formative data as this data was not available at the time this standard was set.

## INPUTS

The following data set was generated from the 2015 Academic Program Review submitted by the Academic Affairs office to IE for review. This does not replace analysis by the Academic Affairs office but is provided for review by the institution. The results are based on responses from 13 academic departments which submitted their surveys to Academic Affairs at the time they forwarded it to IE.

Because the "Inputs" section of the Program Review consists mainly of open ended questions, this report is offered to provide an overview analysis of the results.

To condense the responses for better review, qualitative data from the surveys were themed and coded to provide a more quantifiable analysis of the result. The coding process began with reviewing the results of the survey and finding patterns in the responses by looking for certain keywords and phrases and grouping them into categories as illustrated in the table below.

After grouping comments into categories, percentages were calculated on the amount of responses in each category. In the tables which follow, "Missing" refers to those departments who missing from the summary submitted to IE.

## A. FACILITIES

In this section, respondents are given the opportunity to communicate problems they experienced or are experiencing with the use of facilities on campus. The table below lists the questions that were asked of the participants in this section and the number $(\mathrm{N})$ and percentage $(\%)$ of the responses by category. "Missing" refers to departments with no response.

Table 2 lists the problems with facilities as detailed by the respondents. The detailed responses were grouped in a matrix to determine the commonality of the problems both by academic department and also by the facility identified. The column at the far right of the table shows how frequent a particular problem was reported (highlighted in green) and the row at the very bottom of the table sums up the number of problems reported for a particular facility (highlighted in blue).

IR Notes: The table on the following page can be used with the schedule from Academic affairs on classroom usage to validate the need for classroom space or repairs and a log of PFM job order requests to validate the frequency of problems occurring with each facility.

## B. EQUIPMENT

This portion of the survey evaluates the availability and adequacy of the department's equipment. As with the previous section, the table which follows provides the frequency of responses categorized with the same coding used for the facilities portion.

## Maintenance and Safety

Below are the concerns reported by respondents in regards to the maintenance and safety of equipment:

- Lack of computer maintenance in Business Department Lab $=1$ response
- Slow response by MIS for equipment repair = 1 response
- No maintenance or repair for program specific equipment $=2$ responses
- AC leaks make walkways slippery $=1$ response
- Beds in nursing are a safety hazard $=1$ response

As part of Q9, departments listed inventory of equipment currently in their possession. The inventory is organized in the table below.

## Q2. Additional Supplies and Materials

For this question, the respondents did not identify any one supply more than once. Each department which responded listed materials and supplies which were mostly specific to their curriculum.

| Department | Materials needed |
| :--- | :--- |
| Business | Printing papers and toners |
| ELI/CAPP | Ink, novels and movies |
| Fine Arts | Updated Encyclopedia for music, art and theatre |
| Mathematics | Graphing calculators, working smartboards <br> Nurisng |
| Stethescopes, aneroid, desk sphygomanometers <br> Physical Education <br> laptops, calculators, automobile, scanner, video cameras, lab with body mass <br> calculators |  |
| Science | World maps, globes |
| Department | Acids, reactive metals, glassware, pH paper, density blocks, safety glasses |

## Q4. Additional Resource and Research Materials

Most respondents feel they have adequate resource and research materials for its department with the exception of the Business Department which explained that the shortage of materials and supplies resulted in use of personal resources (namely paper and ink) at home for use in class.

## Q6. Adequate Supplies and materials

A common reply for this question is the shortage of office supplies which often run out in the bookstore and procurement. Respondents have listed paper clips, pens, tape, pencils, paper, staplers, and markers. As a result of the shortage, instructors have had to improvise.

## Q7. Current, relevant and readily available Reference Materials

With the exception of the Nursing Department, the rest of the departments feel that the reference materials are current. Respondents have noted the availability of reference materials in the library and online sources. Nursing has had to resort to personal funds to purchase reference materials because the available ones are outdated. TED also noted that although the reference materials are available in the ERC located in the library, access to it by teachers taking Education courses was limited to the Library hours and not available to them while on campus for classes after regular campus hours.

## D. METHODS

This section evaluates the effectiveness of methods used in the classroom and the support by which these methods are employed. The section covers methods for instruction, evaluation, recruitment and retention.

Assessment Instruments (based on a semester review of course syllabi)

Teaching Methods and Delivery Modes of Instruction (based on a semester review of course syllabi)

## INPUT MEASURES

Input measures are institutional resources provided for a program of study to achieve stated mission and outcomes. Main resources are facilities, equipment, teacher qualifications and capacity, and professional development.

## A. FACILITIES

ARE THE FACILITIES ADEQUATE FOR CURRENT PROGRAMS / SERVICES?
Response should reflect if the current facilities for instructional use are sufficient for future enrollment. Reference current enrollment trends to project future enrollment growth.

## SUMMARY OF FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

Yes. Current facilities are sufficient to house a 30 -student class enrollment.

## 3. Criminal Justice

Yes
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Currently have one smart board installed in an M-12 classroom but are not able to use it because there are no wires. Some classrooms we use at M-12 are not wheelchair accessible. There is always a need for more classrooms because the majority of students test into CAPP and yet we have only 4 classrooms with others in M-12 Building shared with Math. The walkway in front of M-12 Building is very slippery during wet weather. There are no lights illuminating the environment here at night making it highly possible for break-ins as it happened frequently in the past. Finally our offices are rat infested with rats coming in from the ceiling and leaving dropping s everywhere.

## 6. Fine Arts Department

The Art facilities (B8) are below the sufficient level for future enrollment. At least 30\% of the walls in the interior are termite ridden, and the light fixtures are not working adequately for sufficient light. Because the building is situated close to the hillside, there can be a mosquito problem from time to time. And the run off when it rains continues to saturate the surrounding sidewalk pathways.

## 7. Health \& Human Services:

Yes, enrollment are HEA $140=9$, HEA $150=26$, HEA $151=13$, HEA $152=6$, HEA $299=7$, HSV $250=6$, PH $100=7$
8. Language \& Literature department

No, we currently only have two designated English classrooms. Since we offer multiple classes concurrently, some of our faculty teaches classes out of other classrooms, including the Science labs. Our department offices are old and in need of updates. There is a rampant rat problem and we often come in to find rat urine and feces on our desks, books, and carpet. The carpet is so full of urine that it causes respiratory problems for my faculty. The $\mathrm{A} / \mathrm{C}$ units in the office are often in need to repair as they go out periodically.

## 9. Mathematics department

The current facilities for instructional use are well sufficient for future enrollment. With the exemption of smart boards that had already installed but weren't not used due to technical problems.

## 10. Nursing department:

Facilities are not sufficient for current or future enrollment. M-10 does not accommodate the large number of students with spring enrollment at 17. Students had to move beds and tables to make it comfortable to practice skills and theory. The smaller classes were accommodated at M-9. Future enrollment will require a larger classroom hopefully in the grass area between M-9 and M10 if funds are available.

## 11. Physical Education department:

Yes, currently the facilities are adequate and for future trends in enrollment.

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

Except for the Political Science courses whose enrollment each semester is 10-15, all Social Science courses have enrollments of $25-30$. As of this semester, the Social Science utilizes three classrooms exclusively ( $7,8 \& 9$ ) and rooms 19 \& 20 (CJ classrooms). We used to have access to room 10, but that is currently being utilized by the TED program since 2012.

## 15. Science department

The facilities currently are adequate for instructional use. The current trend has shown a drop in enrollment so the facilities are sufficient to serve the student population.

## 16. Teacher Education Department

TED has 5 classrooms: TED 1, TED 2, Rm. 10, M7A, and M7C. It has computer labs: 1 at the ERC (Educational Resource Center), TE-1 MAC Lab, and a mini MAC lab at M7A. These facilities are sufficient for the current and future enrollment growth. Supporting evidence is documented by the MAC Lab sign in sheet and for the ERC located on the $2^{\text {nd }}$ Floor of ASCC Library.

## 17. Trades \& Technology Division:

No: More spaces are needed for AC\&R Workshop, Carpentry Workshop, Diesel Workshop, and ETP Workshop for future enrolment.

ARE THE FACILITIES (CLASSROOM) CLEAN AND WELL MAINTAINED AND SUFFICIENT? Response should indicate if classrooms are well cleaned and maintained regularly; lighting is sufficient in classrooms. The air should be well circulated whereby students and instructors are comfortable in the facilities' classroom.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources <br> ACNR did not submit the APR report

2. Business Department

Yes on the classroom clean, well maintained lights, and well circulated air. However, hearing is impaired in the classrooms by the "echo sound waves" bouncing off the room walls, ceiling, and floor during lectures and discussions. The echo hinders hearing communication in the classroom.

## 3. Criminal Justice

Yes

## 4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Light bulbs in all four E-classrooms need attention as some of them are no longer operable. We desperately need an AC unit in our lab right now as it went out during the latest electric fiasco here at TED. Appropriate student desks would be most welcome in the M-12 classrooms as they use long white tables and they are difficult to share. Classrooms are maintained most days.

## 6. Fine Arts Department

The classrooms are well cleaned, but the air condition system in classrooms 29 \& 30 does not work properly most of the time. Offices located in these classrooms also do not have air condition units. The B8 building needs electric fans, and an AC unit in the dark room used by the photography class. The office in that building has an A.C. unit.

## 7. Health \& Human Services:

Yes
8. Language \& Literature department:

No, classrooms are often dirty. There is no trashcan in classrooms, so students simply throw their garbage on the floor. The classrooms have a terrible echo which conflicts with student learning. Janitors do a good job with sweeping and straightening desks, however they are not in their all day long and lack of trash cans encourages students to leave their trash in the classrooms.

## 9. Mathematics department

Absolutely, maintenance and janitors are definitely performing tremendous job to make sure that classrooms used by mathematics instructors as well as student are well cleaned and maintained regularly.

## 10. Nursing department:

Classrooms are clean and well lit. AC has been in working order through the semester.

## 11. Physical Education department:

Yes, the facilities are clean and well kept at all times.

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.

## 13. Samoan Studies Institute

SSI did not submit the APR report.
14. Social Science

All classrooms used by the Social Science Department are well-maintained regularly, with the air conditions working and light fixtures sufficient enough for the classrooms.

## 15. Science department

Facilities are cleaned routinely and are comfortable with working air conditioners.

## Teacher Education

The facilities are comfortable for everyone who use them. They are clean, wellmaintained, have sufficient lighting, and are air-conditioned. To date, each faculty has their own office space. Student rooms are well ventilated, monitored daily by faculty, and well kept by ASCC Janitorial Staff. Excellent clean up on a daily basis.
Faculty input: "Sorry, but I don't find the above to be true. The reason I don't utilize TED $1 \& 2$ is because they are not cleaned on a daily basis and many times the air con is not working. Space-wise, it is sufficient."
Faculty input: "TED 1 does have sufficient room space and adequate lighting; however, most of the times, it is dirty and warm. It is a constant practice to inform the President's secretary to open the room and inform security personal to turn the air condition now before classes."
Response back: This issue has been brought up several times with Ad Min side. It is a personal preference not to use the rooms, but valid. There is Room 10 available for TED instructors, but we need to dialog as to how all can use the room. Room 10 has computers that also need to be monitored but often times when the room is used, the room is left in a mess and computers all tampered with. Thus the need to close it to other instructors. Once other classrooms open up, we can keep the TED classrooms for TED use only and not have to share the TED classrooms with other classes. This can be brought up again with AA and Ad Min VP's. This will be an additional agenda item.

## 16. Trades \& Technology Division:

## Somewhat:

- Current classrooms are well cleaned and maintained;
- Air conditioners are maintained periodically and have adequate circulation;
- An ongoing leakage still exist between ADT Classroom and Computer Labs
- An ongoing roof leakage for the Auto shop after repairs were made;

## IS LIGHTING (IN CLASSROOM) ADEQUATE?

## SUMMARY FINDINGS:

## SELF-EVALUATION:

# 1. Agriculture, Community \& Natural Resources <br> ACNR did not submit the APR report 

2. Business Department

Yes
3. Criminal Justice

Yes
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Sometimes it is gloomy in E-4 because the light bulbs are not functioning.
6. Fine Arts Department

Lightings in the classroom work well in RM 29, 30, and not for the B8 building.
7. Health \& Human Services:

Yes
8. Language \& Literature department:

Yes
9. Mathematics department

Definitely
10. Nursing department:

Yes
11. Physical Education department:

Yes, the lighting is adequate

## 12. Reserve Officer Training Corps

a. ROTC did not submit the APR report.
13. Samoan Studies Institute
a. SSI did not submit the APR report.
14. Social Science

Yes, the lighting is adequate

## 15. Science department

Lighting is adequate.

## 16. Teacher Education Department Yes

17. Trades \& Technology Division: Yes

## ARE THERE ANY SAFETY HAZARDS?

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

a. ACNR did not submit the APR report
2. Business Department

The only safety hazard is the "echo' sound in the room as mentioned above.

## 3. Criminal Justice

None that I am aware of... But I did notice that there are no fire hydrants in the classrooms and none on the outside of the classrooms.

## 4. College Life Planning

a. CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Slippery walkway coming up to CAPP need to be fixed, several students actually slipped while going down this walkway during rainy days.

## 6. Fine Arts Department

Yes, there are issues of safety in RM 29 and 30. The slippery sidewalk at B8 building is due to runoff from roof, and mainly deteriorating walls that may need attention within the year.

## 7. Health \& Human Services:

No
8. Language \& Literature department:

Occasionally, the AC unit in room 26 leaks
9. Mathematics department

No comment
10. Nursing department:

No

## 11. Physical Education department:

Currently the bleachers need to be replaced with aluminum and floor need to be painted.

## 12. Reserve Officer Training Corps

a. ROTC did not submit the APR report.
13. Samoan Studies Institute
a. SSI did not submit the APR report.
14. Social Science

No safety hazards in the classrooms, but in the Social Science Department there are exposed internet wires. A very major health hazard is that the building is rat-infested, and rat droppings are found each morning when we come to work. That in itself is a health hazard and has been an on-going problem for several years now.
15. Science department

No apparent safety hazards at this time

## 16. Teacher Education Department <br> No

## 17. Trades \& Technology Division:

Yes: When raining due to roof leakage

## ARE FACILITIES ACCESSIBLE TO STUDENTS AND FACULTY WITH

DISABILITIES? Response should confirm if there are ramps and other means appropriate for

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources
a. ACNR did not submit the APR report
2. Business Department

Yes, there are appropriate ramps in place on campus for disabled folks to access the classrooms.

## 3. Criminal Justice

Yes

## 4. College Life Planning <br> CLP did not submit the APR report.

5. English Language Institute - (CAPP-English)

Students using wheelchairs are not accessing classrooms in the M-12 building. They have been relocated in the past with the whole class at the quad or other E-classrooms. We need an overhead covering for the new ramp, students with disabilities and using wheelchairs have to wait for the rain to stop before they can go downstairs.

## 6. Fine Arts Department

The classroom entrance is accessible to students and faculty with disabilities, however, the classrooms must be furnished with the necessary desks and chairs for the special needs students or faculty.
7. Health \& Human Services: Yes
8. Mathematics department

Yes, Recently, just completed with the renovation of the old ramp that transport a disable student to M-building used for CAPP-Math class.
9. Language \& Literature department:

Yes, our classrooms are on the ground floor. They are accessible to students with wheelchairs, crutches, etc. There is ample space to maneuver in the classrooms.
10. Nursing department:

Yes There is a wheelchair ramp outside of M-9 though hallways are too narrow to accommodate a wheelchair. The bathroom is accessible to wheelchairs. M-10 does not have a ramp but a walkway that can accommodate a wheelchair into the building. The bathroom is large enough for a wheelchair and is accessible.

## 11. Physical Education department:

All are accessible to students and faculties with disabilities. There are no need for ramps.

## 12. Reserve Officer Training Corps

a. ROTC did not submit the APR report.

## 13. Samoan Studies Institute

a. SSI did not submit the APR report.

## 14. Social Science

Classrooms are accessible to students and faculty with disabilities, but our offices are not, and these students due to inaccessibility are forced to sit downstairs and wait for the instructor or advisor to come downstairs to get any assistance.
15. Science department

Ramps have been installed so facilities are accessible to all those with disabilities.

## 16. Teacher Education Department

The facilities are accessible to students and faculty with disabilities. The rooms are wide enough for easy movement and access for students with disabilities.
17. Trades \& Technology Division:

Yes

ARE THE RESTROOM FACILITIES NEARBY AND ACCESSIBLE FOR BOTH GENDERS?

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

a. ACNR did not submit the APR report
2. Business Department

Yes The restroom facilities are readily available and reachable in a timely manner on urgent calls.
3. Criminal Justice

Yes
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Yes they are.
6. Fine Arts Department

Yes
7. Health \& Human Services:

Yes
8. Language $\&$ Literature department:

Yes
9. Mathematics department

Definitely
10. Nursing department:

Yes

## 11. Physical Education department:

Yes, the facilities are appropriately placed and accessible to both genders and disabled.

## 12. Reserve Officer Training Corps

a. ROTC did not submit the APR report.
13. Samoan Studies Institute
a. SSI did not submit the APR report.
14. Social Science

Yes
15. Science department

Restroom facilities are nearby and accessible to both genders.
16. Teacher Education Department

The classrooms have nearby bathrooms, except for M7A, M7C, and TE-1 lab that each have bathroom access for faculty use. However, students do have access to bathroom located near the TE-1 lab.
17. Trades \& Technology Division:

Yes
B. EQUIPMENT

DO YOU HAVE THE NECESSARY EQUIPMENT TO FULFILL YOUR RESPONSIBILITIES ADEQUATELY? Response should indicate if there is enough equipment for instructional purposes.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources
a. ACNR did not submit the APR report
2. Business Department

Yes, There is enough equipment for instructional purposes. However, a department issued laptop would be a plus to use the smart board in the classroom.

## 3. Criminal Justice <br> Yes

## 4. College Life Planning

a. CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Because we serve a large population, we are always in need of inks to run copies, We have 3 Xerox machines but most times they are not in use as they have no ink. Since the smart board in M-12 is not in use, we could probably move that to the lab so it can be utilized instead of just taking up space there. That smart board currently has no wires.

## 6. Fine Arts Department

RM 30 only has a smart board that we don't use frequently. One reason is that we don't have a laptop, cords, etc. to work with the smart board. Because we offer art history courses that require the presentation of visuals that recount the historical facts, it has always been the desire to have a smart board or a projector exclusively for the Art Department. It would also be ideal to have two more computers on board for graphic design purposes.

## 7. Health \& Human Services: <br> Yes

8. Language \& Literature department:

No, it would be helpful if all faculty in my department had a laptop. We are constantly trying to schedule the two laptops that we have, and then sometimes we go to AA for additional laptops. It's hard when instructors want to save their data on the dept. laptop. Additionally, I had filled out a PR for an Opaque Projector years ago, yet it was never purchased. This would be a helpful way to showcase student work so the entire class can see what is done well, what needs work, etc. I believe that it is necessary to have an additional department printer as there are six faculty sharing only one.

## 9. Mathematics department

Actually, we have enough equipment for instructional purposes but with the exemption of smart boards installed in three classrooms have been used for almost a year and a half.

## 10. Nursing department:

No, there is a need for 2 hospital beds, a vital sign machine and Alaris IV pump for training.

## 11. Physical Education department:

Yes, there are adequate equipment for all students.

## 12. Reserve Officer Training Corps

a. ROTC did not submit the APR report.

## 13. Samoan Studies Institute

a. SSI did not submit the APR report.
14. Social Science

No. The department has 2 working laptops that five (5) instructors share. We all make use of the laptops at any given time, and most times we have to sign out a laptop and a projector as there is only 1 smartboard in room 9. If three of us have a class at the same time, and need to use the laptop and/or projector, we can either borrow from MIS, or put the planned lesson off for that day until a laptop and projector are available.

## 15. Science department

There is a need currently, to fill orders on a timely basis as there is a need to upgrade the scales used in the lab.

## 16. Teacher Education Department

We seem to have sufficient equipment for our needs. However, we could do better with a few more projectors. Sometimes, the presentations in classes occur at the same time, so faculty have to shuffle times to accommodate their presentations. There are however, projectors from AA that TED faculty can reserve ahead of time for class use.
Faculty input: "TED 1 needs a Smart Board. A projector is sufficient but constant transporting from office to TED 1 during raining seasons will decay the equipment. Personally, I would like a laptop to do my work. I am utilizing my personal laptop for this purpose."

## 17. Trades \& Technology Division:

This would be address through TTDPR
are enough textbooks each semester for each course. Identify courses with no textbooks and explain why.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

No. All the accounting courses are still using older revision text books because the newer revisions are not in the book store shelves as this is written.

## 3. Criminal Justice

Yes
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

There are enough textbooks for each course, teachers also require all students to buy textbooks for the class
6. Fine Arts Department

Yes, for courses that require textbooks.
7. Health \& Human Services:

Yes
8. Language \& Literature department:

Yes, we have textbooks for each course.
9. Mathematics department

We do enough textbooks for each course(s) except Math 260-Introduction to Statistics. Both Teachers edition and students textbooks are not available. The Instructor has to order textbook on line and search for information to teach this course. I followed up with the bookstore in regards to the status and they said that they are still waiting for the order that already been placed.
10. Nursing department:

Yes

## 11. Physical Education department:

Yes, the textbooks are available every semester.

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.
14. Social Science

Yes, unless the textbook orders are not received in a timely manner. We then resort to improvising with other materials until the textbooks arrive.
15. Science department

There are textbooks available for all the courses.

## 16. Teacher Education Department

There are enough textbooks for each course. We make sure there are 50 texts available per semester. Textbooks are ordered each semester.

## 17. Trades \& Technology Division: <br> Yes

DO YOU HAVE ADEQUATE (UP TO DATE) TEXTBOOKS TO SUPPORT YOUR COURSE(S)/PROGRAM(S)? Response should indicate if textbooks are within the 5year limitations. If not explain why?

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

No. All textbooks for the accounting courses are beyond the 5-year limitations until the new books are in.

## 3. Criminal Justice

Yes
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

We are currently looking into finishing the bookstore stock and we are ready to order new textbooks from the same Townsend company that enhances both Reading and Writing, if not this coming Fall then Spring 2016
6. Fine Arts Department

Yes

## 7. Health \& Human Services: <br> Yes

8. Language \& Literature department:

Yes, all books are within the 5-year limitation with the exception of our LIT 274 Pacific

Literature book. Nuanua, Pacific Writing in English was published in 1995, but is still used because many colleges use this book as part of their curriculum. It is the most complete compilation of Contemporary Pacific Literature available.

## 9. Mathematics department

All Mathematics textbooks have adequate (up to date) it will never exceed thatn 5 year limitations.
10. Nursing department:

Yes. Textbooks are within the 5 year limitation.

## 11. Physical Education department:

Yes, all our books are within a five year copyright limit

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

Yes, unless the textbook orders are not received in a timely manner. We then resort to improvising with other materials until the textbooks arrive.
15. Science department

Some textbooks are not within the 5-year limit. Physical science, Chemistry, and Biology (180) are older books but are adequate for the course material and standards. A review of these books will determine if they are still valid.

## 16. Teacher Education Department

All our textbooks are updated and are of the latest editions.

## 17. Trades \& Technology Division: <br> Yes

## WHAT ADDITIONAL EQUIPMENT DO YOU NEED?

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

A department computer lap top so we can use the smart board

## 3. Criminal Justice

N/A at this time

## 4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

## 7. Health \& Human Services:

None
8. Language \& Literature department:

Laptops for each instructor, additional printer for office, Opaque Projector.
9. Mathematics department

Graphing calculators for upper level courses.

## 10. Nursing department:

2 hospital beds, a vital sign machine and Alaris IV pump for training. 4 manikins.

## 11. Physical Education department:

Yearly we need some of the equipment to be replaced every semester due to wear such as balls, nets, etc.

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.

## 13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

The Social Science would like to request one projector and an additional laptop to accommodate the needs of the department in their teaching. We also need an air condition that works as every semester, the current one which was here when I first came on board (2007) breaks down and we have to wait for weeks or months before it is repaired.

## 15. Science department

Scales need to be upgraded, and glassware is needed.

## 16. Teacher Education Department

Projectors -It would be convenient for each instructor to have their own.
Faculty input: "Students could use laptops that are strictly monitored for their use, as a lot of students' assignment are expected to be done via technology and many do not have access to computers. Students did have computers in the past, but they were not monitored well."

IS THE EQUIPMENT ADEQUATELY MAINTAINED? Response should indicate if equipment is adequately maintained for instructional purpose.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

No. The computers in the lab require attention, such as cleaning and tune-ups.

## 3. Criminal Justice N/A

## 4. College Life Planning

CLP did not submit the APR report.

## 5. English Language Institute - (CAPP-English)

## 14. Social Science

The last projector we had (5 years) was never maintained and eventually broke down. When the two laptops have problems, MIS is called and they have always managed to resolve the problem.
15. Science department

Mostly yes, but the fume hood in A17 is nonfunctional and has been since it was installed. Discussions with the contractor have yielded nothing as far as repairs are concerned
16. Teacher Education Department

All equipment is maintained adequately.
Faculty input: "No. It would be nice if there was a plan for equipment to be annually maintained."
Response back: There is a TED SOP Manual on equipment and the procedures for the equipment. An agenda item for fall semester 2015.
17. Trades \& Technology Division:

C. MATERIALS

ARE THE INSTRUCTIONAL MATERIALS IN THE COURSES AND PROGRAM UP TO DATE AND DO THEY REFLECT THE NEEDS OF THE INDUSTRY AND THE COMMUNITY? Response should indicate if all instructional materials such as textbooks, supplementary materials, journals, magazines, etc. are up to date and appropriate for instruction. Explain if such instructional materials reflect the needs of the community.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources <br> ACNR did not submit the APR report

2. Business Department

All instructional materials are current, except the textbooks mentioned above. The materials reflect current global events

## 3. Criminal Justice <br> YES

## 4. College Life Planning

CLP did not submit the APR report.

## 5. English Language Institute - (CAPP-English)

Yes, all instructional materials are up to date, these materials do not necessarily reflect the need of the community, but they do enhance the needs of remedial students in our program because they assist students in reading and writing well.

## 6. Fine Arts Department

Yes

## 7. Health \& Human Services:

IS THERE A WRITTEN CURRICULUM, WHICH RELATES TO THE SPECIFIC LEARNING OUTCOMES OF THE PROGRAM? Response provides an explanation of how your academic curriculum is specifically related to the Program Mission and/or learning outcomes.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

Yes. The department offers the following degree and certificate programs of studies: Associate of Science in Accounting; Associate of Science in Business Management; Certificate of Proficiency in Accounting; and Certificate of Proficiency in Business Management. The appropriate courses for the degrees and certificate programs have been established with the learning outcomes.

## 3. Criminal Justice

## 6. Fine Arts Department

Yes, the fine arts curriculum aligns to the department program learning outcomes, to the department mission and the institutional mission.
7. Health \& Human Services:

Our health science and human service curricula provide outcomes that support degree program mission and mapping
8. Language \& Literature department:

Yes, all course curriculum directly relates, supports, and assesses out Student Learning Outcomes.

## 9. Mathematics department

Each math course has its own course description and that's the written curriculum which relates to the course and program learning outcomes of the mathematics. The mission statement reflects the course description of each mathematics course.

## 10. Nursing department:

Yes, curriculum provides a complete picture of learning provided to the student and related to the program mission and learning outcomes.

## 14. Social Science

The written curriculum of the Social Science Department has specific learning outcomes that align to the specific learning outcomes of the program. Since 2012 we have held dialogues regarding our written curriculum, we re-visit our PLOs to ensure that (statement is incomplete by the department).

## 15. Science department

Course Approval Forms are the written curriculum that does outline specific learning outcomes.
16. Teacher Education Department

The TED Curriculum has been aligned from PLOs to CLOs. They are also aligned to the mission statement. The alignment is evidenced by each course's curriculum matrix which indicates all key assignments, the level of performance and all assessment indicators designated for each course. The curriculum is related to the Program Mission in that it ensures that graduates will be competent teachers when they exit the program. The program and its courses ensure that competencies are mastered by its students before graduating.

## IS THE SEQUENCE OF THE COURSE CONTENT APPROPRIATE AND DOES IT PROVIDE FOR PROGRAM CONTINUITY? Response should indicate if appropriate sequencing of courses is in place, which allows for knowledge being built upon previous knowledge. Sequencing involves lower level courses as offered as required before students take

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Yes. The sequence of the courses to be taken is structured in an ascending order from lower level courses to upper level courses. Also, pre-requisite course requirements are in place as assurance students are ready to meet the challenges offered by each upper level course.

## 3. Criminal Justice <br> Yes

IS THE INSTITUTION AND PROGRAMS EVALUATED BY STUDENTS OR PEERS ON A REGULAR BASIS? Response should indicate if student enrolled in your degree and/or certificate programs of study evaluate your academic program. Explain how this process is done
and the evaluating instrument that is being used by student to evaluate your program(s)/course(s).

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources <br> ACNR did not submit the APR report

2. Business Department

Once a year, I give ACC150 students a chance to evaluate the course by writing a two page essay about the course. The essay includes the - likes and dislikes about the course; the instructor's performance; what could be changed to simplify understanding; challenge offered by the course, and anything else that the student would like to address about the course. This information is analyzed and shared with the next semester class. In addition, adopted changes are implemented in the next semester class as well. For example, during the last essay writing about the course students suggested to demonstrate more accounting problems and transactions posting during the lecture to ensure understanding. This has been implemented during lecture sessions. In addition, additional classwork in these areas are being done to measure student understanding.

## 3. Criminal Justice

No

## 4. College Life Planning <br> CLP did not submit the APR report.

5. English Language Institute - (CAPP-English)

Yes they are, all evaluations are initiated by the IE office in the past. A systematic procedure needs to be in place to accomplish this because when it is time for evaluations, all CAPP courses are done. Recently, these evaluations were absent.

## 6. Fine Arts Department

Students evaluate our degree programs every spring semester through a questionnaire sheet. We also interview students and record these documents.

## 7. Health \& Human Services:

Yes, staff from IE office distributes class evaluation for all courses offered in the semester. Evaluation is dispense to each student to fill out toward the end of the class, and then a volunteer student would gather them and collect them and delivered to the Dean of Academic Affairs office or IE's mail box in the faculty lounge or to the security office if the course is taught after hour. The instructor should be excused themselves during the course evaluation.
8. Language \& Literature department:

Students complete a course evaluation form at the conclusion of every semester.
Department-wide evaluation of courses takes place regularly during department meetings.
9. Mathematics department

Usually this process is done once a semester toward the ending and the course taught by an instructor are evaluated by students.
10. Nursing department:

No. Evaluation used to be covered by IA.

## 11. Physical Education department:

By students and peers

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

Yes. Each semester students fill out evaluation forms where they assess the courses they take. IE sends out evaluation forms for every course an instructor teaches based on the number of students per class. The evaluation form is based on a Likert-scale where students choose anywhere from 1-5 ( 1 being the lowest and 5 being the highest). At the end of the evaluation is a comment section where students may provide additional comments.

## 15. Science department

Yes, end of semester student evaluations are conducted to gain feedback concerning the respective courses.

## 16. Teacher Education Department

At the end of each semester, students evaluate each course. The program is evaluated once a year. The evaluation is provided by IE. TED Program also conducts its own program evaluation of all its courses using its own TED survey. All surveys are turned over to IE for their analysis and interpretation of collected surveys.

- Surveys are administered at least one week prior to the end of the respective semester.
- A staff member distributes the survey and collects the completed surveys for each course. Teachers are not to be present in the classroom.
- Staff member collects the surveys and turns the completed surveys in to the TED Administrative Assistant in confidential envelopes.
- Surveys are given over to IE for analysis.
- o Final analysis is reviewed and shared with faculty at the beginning of each semester.

DOES THE PROGRAM HAVE A COMPREHENSIVE STRATEGY FOR
RECRUITMENT? Response should indicate if your department/division has a comprehensive strategy for recruitment and explain what that strategy is for your academic department/division.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources <br> ACNR did not submit the APR report

2. Business Department

Not anymore because we are not allowed to have fund raising on campus like we did before. However, when a high school invites us to attend their business day or Samoan day, we go out to promote ASCC and the Business Department. Most of our recruitment is done through the grass root method.

## 3. Criminal Justice

No

## 4. College Life Planning <br> CLP did not submit the APR report.

5. English Language Institute - (CAPP-English)

If this is the recruitment of students, our English CAPP department does not have a problem because the majority of incoming students test into CAPP.

If there is a need to hire someone for the department, the candidate must meet the minimum qualifications of the position. The need for a new instructor is requested through the Dean's office and once proper protocol has been followed, an advertisement is placed in the newspaper where the qualifications are listed. The chairperson then selects a panel to conduct interviews for qualified applicants.

## 15. Science department

When needed, the department contacts the dean of academic affairs to place ads in the local media and to accept recommendations on potential instructor candidates.

## 16. Teacher Education Department

Teachers are recruited as needed. The process involves the HRO. Advertisements are published and ample time is allotted for individuals to apply. Then a comprehensive interview and screening process follows. These result in the hiring of needed personnel.

#### Abstract

WHAT CRITERIA DOES THE INSTRUCTOR OR ADVISOR USE TO PLACE STUDENT IN THE CLASSROOM? Response should explain how student are placed in courses that are taught in your academic departments: placement tests, standardized test scores, pre-requisites, etc.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

The student must be registered for the semester and meet the requirements to take the appropriate course for the selected program. For a new student, the placement test results from the Admission Office will determine which courses the student can take first.

## 3. Criminal Justice

Placement tests are taken and then student are placed in the appropriate courses as stated in the 2014-2016 catalog pg. CAPP and GED requirments...

## 4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

Most take the Placement exam and others use their SAT scores

## 6. Fine Arts Department

Fine Arts courses are open to all students. We encourage student to be involved in the creative arts.

## 7. Health \& Human Services:

N/A
8. Language \& Literature department:

Initial placement into English 150 and English 151 is based on either the student's placement test scores (SAT, placement test) or successful completion of CAPP 90 and/or 91 classes. For the sophomore-level courses, students must pass the prerequisite courses in order to enroll.
9. Mathematics department

The students SAT scores and Placement test.

## 10. Nursing department:

Students admitted to the current RN group was 12 last fall 2014 and 9 this semester. The past number of admittance was 21 with 13 completing the program. The PN program admitted in the last cycle was 21 with 9 completing the program. The current number of admittance was 17 with 10 completing this semester.
11. Physical Education department:

Each student must pass the placement test and therefore be placed in the course which he/she is required
12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

We mainly place students in courses if they have met the pre-requisite(s) for the class. Otherwise if a course does not have a pre-requisite and the student is interested in taking the course, they are enrolled in the class.

## 15. Science department

Prerequisites, declared majors and individual interests are the primary criteria for placing students in various science courses.

## 16. Teacher Education Department

We use the SAT and/or ACT scores for placement. There is a college placement test that is administered before the beginning of each semester. Test scores from placement tests determine the level of English, Writing and Math courses (CAAP). Students who place in CAAP courses cannot register for college level courses until all CAAP courses are completed.
Faculty input: "This is referring to our program not the institution, and as far as I know, we do not have such a criteria for students to be placed in our classroom. Students who register in our courses, get in no matter what. Walter's have asked this question during the accreditation visit about the BED Program, an answer that was given by a veteran teacher that we do have a placement test, but we know that we do not. What we need to consider is, How do students enter the BED Program? What are the criteria? GPA? Successfully passing introductory, 100, 200 courses with c or better?"

Response back: For this point, the ASBEP Catalog states admission and the AA, B.ED. Advising sheet states the program requirements for AA and B.Ed. entry. A definite agenda item in the fall semester 2015.
17. Trades \& Technology Division:

WHAT IS THE CURRENT AND PAST ENROLLMENT OF THE PROGRAM? Response should strictly include past enrollment of the last review cycle and current enrollment.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Total count of all students taking business courses are as follows: Spring 2015 enrollment is 70 students; Fall 2014 enrollment is 71 students; Spring 2014 is 79 students.

## 3. Criminal Justice

I don't know at this time.

## 4. College Life Planning

CLP did not submit the APR report.

## 5. English Language Institute - (CAPP-English)

There is an overwhelming number of students in English CAPP every semester especially in the Fall semesters. Data from Admissions or IE could verify this.

## 6. Fine Arts Department

There are approximately $8-10$ students majoring in either music or art, however, fine arts do not only serve that population, we also cater to any student who enrolls in our courses and participate in the creative arts.

## 7. Health \& Human Services:

Will look it up in the pile of my data
8. Language $\&$ Literature department:

## 14. Social Science

During the Spring 2015 semester, the Social Science enrolled approximately 293 students in our classes. This has been a trend over the last 4 years, where enrollment was between $250-300$ students enrolled in the program per semester.
15. Science department

Currently (Spring of 2015): 247 students
These numbers are based on student counts in each of the classes offered in the Science Department.

Past: 291 students
16. Teacher Education Department

Past enrollment:
Current enrollment: 70 ASDOE teachers, 50 Private School Teachers
Pre-service students:
17. Trades \& Technology Division:

IS THE ENROLLMENT IN THE PROGRAM TOO HIGH OR TOO LOW FOR
CURRENT RESOURCES? Response should indicate if programs student enrollment is too high or too low for current physical, financial, and human resources.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Total enrollment for the different classes in the program is fine.
In some semesters, almost too low. Example 7 students.

## 3. Criminal Justice

I don't know at this time

## 4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

The enrollment is too high, teachers are always improvising to meet the rigorous student demands every semester.

## 6. Fine Arts Department

The current enrollment is adequate for financial and human resources

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.

## 13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

The enrollment for the courses is too high, but we try to accommodate as many students as we can, especially if they need a class to graduate. Due to high enrollment in the courses and program, there is a high need to bring on another instructor to help alleviate over-enrollment in all courses.
15. Science department

The enrollment is currently adequate but there exists more room for additional students at this time.

## 16. Teacher Education Department

Our enrollment is constantly increasing. We are doing a lot of work to promote our program among the local high schools. The enrollment is just right for our faculty and facilities.
(Data needs to be provided for past enrollment and current enrollment)

## 17. Trades \& Technology Division:

Low enrolment at the moment with room for improvement with the implementation of the revised programs in the new catalog.

DO ALL STUDENTS HAVE A DESIGNATED ADVISOR? Response should indicate if all students are assigned with an advisor and if all instructors in your department are assigned.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Yes, every student has a designated advisor, which is anyone of the three instructors in the department.

## 3. Criminal Justice <br> Yes

4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

## 7. Health \& Human Services:

Ever since the beginning of online registration, certain students are advising themselves based on the advising sheet which we see a rise in misadvisement. Since only one full time faculty in this department, I am advising both health science and human services students
8. Language $\boldsymbol{\&}$ Literature department:

Students do have a designated advisor if they are a Liberal Arts major, however if that specific instructor is unavailable, any faculty can advise/ sign off any Liberal Arts student.
9. Mathematics department

Yes

## 10. Nursing department:

Yes. Students are assigned to each instructor (2) with the chairperson keeping track of all outstanding pre-requisites or nursing courses and requirements.

## 11. Physical Education department:

Yes each student has an advisor once they enter ASCC.

## 12. Reserve Officer Training Corps

ROTC did not submit the APR report.
13. Samoan Studies Institute

SSI did not submit the APR report.

## 14. Social Science

Yes, but many of them do not seek the assistance of their assigned advisors until they come across an obstacle, especially around graduation time when they think they're graduating, but find out that they are missing one or two classes.

## 15. Science department

Yes, and all science instructors are assigned as advisors

## 16. Teacher Education Department

Yes, all our students have advisors and all our faculty are involved in advising. Faculty input: "As is our practice, all students who are TED/BED majors can have any TED faculty advise him/her but they do not have a designated advisor. One of the reasons may be based on the availability of faculty to advise on any given day or time of day that student(s) seek advisement."
Need to check with Admissions as to how they assign faculty advisors per student. A listing would be great.

## 17. Trades \& Technology Division:

Yes:
Instructors are advised to be advisors to students who declare a major with their respective program

## ARE THE ADVISORS AND FACULTY KNOWLEDGEABLE CONCERNING

## 15. Science department

Yes, see \#12 above

## 16. Teacher Education Department

There are advising sheets (IEP) for both the AA in Education and the B.Ed. degrees.
Faculty input: "We have an advisement form that indicates requirements of what a student has completed and needs to complete for his/her degree. This form is filed and updated each semester a student attends until he/her she complete all requirements to achieve a certificate or degree. We keep a student file where this information along with the student's unofficial transcripts can be retrieved at time of advisement so that the student will know exactly where he/she stands as from as program completion is concern."

DOES THE PROGRAM HAVE A COMPREHENSIVE STRATEGY IN PLACE FOR
RETENTION? Response should indicate an explanation or how your academic department/division is retaining students in your department/division program.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

Part of the instructor's advising orientation is to inform the student about the importance of completing the program in a timely manner. Help is always available for academic problems either from the instructor or other students. One on one student-instructor sessions during office hours are always open for needed students. We use a pro-active approach to ensure students are kept onboard by talking to those that are lacking the learning effort .
3. Criminal Justice

## 14. Social Science

No we don't have a comprehensive strategy per say, but we do offer lots of encouragement and assistance to those who are in need (research writing \& APA format), and sometimes we give monetary assistance with the understanding that it must be paid back (contract) if a student is in dire need.

## 15. Science department

Only a rudimentary strategy is currently in place but a high percentage of students that declare a science major are committed and complete that major.

## 16. Teacher Education Department

Our strategy calls for our faculty to help students succeed so that they would want to finish the degrees in our program.
Faculty input: "The program does not have a comprehensive strategy in place for retention, however, when students are retained for whatever the reason may be, students are encouraged to seek help of their instructors, and instructors are to provide assistance to students. A comprehensive strategy should be something to consider as with students who fail a course more than twice."

DOES THE INSTITUTION PROVIDE DEVELOPMENTAL OR REMEDIAL MATHEMATICS AND ENGLISH COURSES FOR STUDENTS WHO ARE PLACED AT THESE LEVELS? Responses should indicate of your academic department requires students to take remedial Math and English courses before enrolling in college bound courses.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Part of the instructor's advising orientation is to inform the student about the importance of completing the program in a timely manner. Help is always available for academic problems either from the instructor or other students. One on one student-instructor sessions during office hours are always open for needed students. We use a pro-active approach to ensure students are kept onboard by talking to those that are lacking the learning effort .

## 3. Criminal Justice

## 14. Social Science

Yes via the CAPP program.

## 15. Science department

Yes, the CAPP is a program that provides remediation in mathematics and English skills that are required before taking regular college courses if the college entrance exam indicates the need.

## 16. Teacher Education Department

Yes, the CAPP program is in place and doing quite well to prepare students for regular college courses.
Faculty input: "It has been on the discussion table of students (mainly in-service ECE teachers who take certification courses and or taking courses to obtain their AA Degree and have a difficulty in writing that they ought to be referred to CAPP. The difficulty of the matter is, many times these students are already enrolled in our courses and they do struggle, when they should have been tested first to see if they need to attend CAPP first. Yes CAPP is a good program for in-service students, but for in-service teachers a process is not in place for their needs in this area. It needs to be considered."

WHAT IS THE RETENTION RATE FOR THE PROGRAM? Response should indicate the number of students retained in you degree program(s). If your department/division does not offer a degree/certificate program, you still have to identify your program's retention rate.

## SUMMARY FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

By my calculation, the retention rate of students signed up for the programs offered is $97 \%$. Three percent of students dropped out of the program for various reasons such as finding work, medical, family situations, and laziness.
3. Criminal Justice

I don't know at this time.
4. College Life Planning

CLP did not submit the APR report.
5. English Language Institute - (CAPP-English)

## SUMMARY FINDINGS:

## SELF-EVALUATION:

## 1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report
2. Business Department

There should be an assigned "adjunct faculty" permanently appointed to the Business Department. The two department members have been carrying the load designated for three members since fall 2014 semester, going in to summer 2015 semester. It includes the "acting chairperson." A permanent appointed "adjunct faculty" would have been handy during the mentioned period.

## 3. Criminal Justice

#### Abstract

DO INSTRUCTORS REGULARLY COMMUNICATE WITH PROGRAM-RELATED BUSINESS OR INDUSTRIES'? Response should indicate if the department faculties are in contact with the local business community on issues related to instruction, career paths, community needs, and all activities related to the programs of your department/division.

## SUMMARY OF FINDINGS:

## SELF-EVALUATION:

1. Agriculture, Community \& Natural Resources

ACNR did not submit the APR report

## 2. Business Department

Yes. The department instructors are actively in contact with local business community on issues related to student projects and career paths. Recently, our students conducted research on the business community position about the recent room taxes that was introduced and passed by our local legislatures.
3. Criminal Justice

Not sure if CJ has any affiliation with local business in the past. But there will be a discussion for student internships/practicum in the new revised CJ curriculum 2016-2018 catalog.

## 4. College Life Planning

We have collaborated with other government agencies, the private sector, as well as with individuals and have developed a great working rapport with each of them to the point where we can rely on one another to meet the needs of our program.

## 15. Science department

Yes, for example, the hospital communicates their needs as does ASPA

## 16. Teacher Education

We constantly communicate with the local DOE and also with businesses concerning the needs of our society.
Faculty input: "We do community outreach mainly to high schools to provide information as to what we offer in our program. Another avenue is our relationship with schools, mainly the elementary schools where our students do student teaching and attend practicums. The student teachers culminating events allows us to associate and create a relationship with the school's administrators, parents and other faculties. Recently, our dept. teamed up with the National Park Agency and our students were involved in a climate change project that afforded our students to teach lessons of awareness about Climate Change to elementary students, and also our students did a volunteer Read Aloud Project at the Feleti Barstow Library reading to the children of American Samoa. Most recently, students from various high schools visited ASCC to have a feel of what ASCC has to offer, and our students who were graduating from our BED Program spoke on what they were able to learn and achieve in our program."

## OUTPUT MEASURES

Output measures are specific student characteristics developed after the completion of an academic program of study or course. The areas identified are tracking, course and degree/certificate, retention/completion rates, and the assessment of student learning outcomes.

## Mission

1. List the achievements of each DLO and/or PLO within your division.
2. What do you use to measure 'each' achievement?
3. What DLO and/or PLO 'were not' achieved within your division?
4. What impediments contributed to not achieving these department/division?
5. Identify how your achievements are connected (aligned) to:
a. Transfer to institutions of higher learning
b. Successful entry into the workforce
c. Research and extension in human and natural resources
d. Awareness of Samoa and the Pacific

## Effectiveness

1. What services/programs does your division provide that affect: (must respond to all areas).
a. Academic/Education?
b. Staffing?
c. Technology (high or low tech)?
d. Facilities?
e. Budgeting?
f. Other Resources?
2. How is feedback from internal/external stakeholders used to make changes or improvements? (e.g. Advisory Council Members)
a. What other methods (data, reports, memo's, etc.) are used to make changes to improve your division?
b. Identify the changes or improvements made as a result of feedback or methods used?
c. How are these changes communicated to internal/external stakeholders for quality assurance?
3. How do you evaluate your services?
4. How will your division use program review results to evaluate your program or services?

Academic Department/Programs that did not complete the Output Measures on the APR:
AGRICULTURE COMMUNITY \& NATURAL RESOURCES
COLLEGE LIFE PLANNING
CRIMINAL JUSTICE
MATHEMATICS DEPARTMENT
SAMOAN STUDIES INSTITUTE
RESERVE OFFICER TRAINING CORPS (ROTC)

## SCIENCE

SOCIAL SCIENCE

## BUSINESS DEPARTMENT

## Mission

- List the achievements of each DLO and/or PLO within your division.
- Well, in Fall 2014 our department has 9 graduates. 1 was employed locally; 5 continued on to universities locally and off-island; 1 joined the US Air Force; and 2 moved off-island to search for job opportunities.
- Spring 2015 our department will have 10 graduates for tomorrow. 1 will work for the family business locally; 5 will continue on to colleges off-island and locally; 1 joined the US Army; 3 are not certain of what to do yet.
- What do you use to measure 'each' achievement?
- Measuring is done using any one or combination of the following methods - class discussions, quizzes, tests, assignments, classwork, quality of research, presentations, and use of technology.
- What DLO and/or PLO 'were not' achieved within your division?

I think all the PLOs that were selected to be achieved for each course were achieved. The ones that were not achieve did not apply to the course. For example, PLO \#6 only applies to accounting courses.

- What impediments contributed to not achieving these department/division?

N/A

- Identify how your achievements are connected (aligned) to:
- Transfer to institutions of higher learning - F2014 $=5 ;$ S2015 $=5$
- Successful entry into the workforce - F2014 = 1; S2015 = 1
- Research and extension in human and natural resources - N/A
- Awareness of Samoa and the Pacific - F2014 =9; S2015 = 10

## Effectiveness

- What services/programs does your division provide that affect: (must respond to all areas).
- Academic/Education? Tutoring other students; local income tax service
- Staffing? Local income tax service; tutoring other students
- Technology (high or low tech)? Accounting Data Automation Training
- Facilities? Monitoring the computer lab users.
- Budgeting? Department fund raising activities
- Other Resources? Funds from completing local companies surveys. (Blue Sky)
- How is feedback from internal/external stakeholders used to make changes or improvements? (e.g. Advisory Council Members) -
- If there were feedback - the information would be reviewed and discussed within the department for the best action to take. If it is beneficial to student learning and could be implemented, the department would make the appropriate decision and channel it through the proper authority for approval.
- What other methods (data, reports, memo's, etc.) are used to make changes to improve your division?

Enrollment and graduation rates, course passing rates, instructors' performances, students' attitude and performance, etc.

- Identify the changes or improvements made as a result of feedback or methods used?

Course assessments, delivery process, increase classroom hands on work, emphasis on quality reading.

- How are these changes communicated to internal/external stakeholders for quality assurance?

Reports, department meeting agendas, committee meetings.

## - How do you evaluate your services?

Review what was done this semester and make appropriate changes on areas that should be improved or make better for the next semester. My goal is to continue to simplify the process in a way that would make it easier for students to understand accounting. This is one of the ways to ensure they would continue to pursue advanced accounting courses at the next level of their education in order to graduate in the accounting field.

- How will your division use program review results to evaluate your program or services?

To improve performance in the classroom, to train instructors through more collaboration on issues, to improve staffing, to improve service from supporting employees (computers, classroom maintenance, air conditioners, etc.)

## ENGLISH LANGUAGE INSTITUTE-CAPP ENGLISH

Mission

List the achievements of each DLO and/or PLO within your division.
CAPP English PLO's and CLO's

## PLO's

1. PLO 1: Actively listen and engage in individual or group discussions and conversations: Eng 70, 80, \& 90
2. PLO 2: Engage in conversational styles, forms and sounds of English - Eng 70, 80, \& 90
3. PLO 3: Identify and apply basic college reading skills to describe, interpret, summarize and make analytical judgment in reading selections - Eng 70, 80, \& 90
4. PLO 4: Apply the basic steps of the writing process to write well-structured sentences, paragraphs and essays using critical thinking skills - Eng 71, 81, \& 91
5. PLO 5: Participate in active learning activities using technologies and service learning - Eng 70, 80, \& 90

## CLO's Aligned to PLO 1

1. Respond to requests and follow directions during group discussions and hands on activities
2. Work in groups, sharing and reporting information
3. Critically evaluate context of lectures

CLO's aligned to PLO 2

1. Discuss the different genres in reading selections
2. Speak grammatically correct sentences that show understanding of reading or writing concepts
3. Speak formally to present projects
4. Answer and ask comprehension questions

CLO's aligned to PLO 3

1. Promote ways for students to read for personal growth and lifelong learning
2. Recognize implied meaning in reading selections and make analytical judgments
3. Apply reading skills to different genres
4. Identify elements of literature in reading selections

CLO's aligned to PLO 4

1. Composer grammatically correct sentences
2. Write concise responses to inquiries
3. Write appropriate paragraph and essay introductions
4. Formulate clear, concise thesis statements
5. Apply different patterns of organizations in constructing basic essays

CLO's align to PLO 5

1. Identify main ideas and supporting details in different media
2. Effectively use Microsoft Word, Power Point, and internet research to enhance learning
3. Utilize online reading and writing tutorials
4. Appreciate community service through real life experiences

What do you use to measure 'each' achievement?
We use Rubrics
What DLO and/or PLO 'were not' achieved within your division?
Sometimes the PLO's are not achieved when students stop coming to class and earn an NP
What impediments contributed to not achieving these department/division?
Factors such as transferring to the military, teenage pregnancy, moving off island, part time jobs, etc, causes students to miss class contributing to not achieving the PLO's.

Identify how your achievements are connected (aligned ) to:
a. Transfer to institutions of higher learning
b. Successful entry into the workforce
c. Research and extension in human and natural resources
d. Awareness of Samoa and the Pacific

Our achievements in the developmental level enable our students to progress to regular college level courses.

Effectiveness : All the questions below pertain to the Division, I presume this would be an appropriate section for the Dean of Academic Affairs to provide feedback.

What services/programs does your division provide that affect: (must respond to all areas).
a. Academic/Education?
b. Staffing?
c. Technology (high or low tech)?
d. Facilities?
e. Budgeting?
f. Other Resources?

How is feedback from internal/external stakeholders used to make changes or improvements? (e.g. Advisory Council Members)

What other methods (data, reports, memo's, etc.) are used to make changes to improve your division? Identify the changes or improvements made as a result of feedback or methods used?

How are these changes communicated to internal/external stakeholders for quality assurance?

How do you evaluate your services?
How will your division use program review results to evaluate your program or services?

Table 1: Identify all academic department courses offered in the academic review cycle/timeline.

## NURSING DEPARTMENT

## Mission

6. List the achievements of each DLO and/or PLO within your division. NCLEX, employment
7. What do you use to measure 'each' achievement? NCLEX pass and employment
8. What DLO and/or PLO 'were not' achieved within your division? None
9. What impediments contributed to not achieving these department/division? N/A
10. Identify how your achievements are connected (aligned ) to:
a. Transfer to institutions of higher learning - 9 ASCC RN graduates with BSN from UMFK
b. Successful entry into the workforce - 222014 graduates - 21 employed in healthcare agencies, 1 US Army Reserve
c. Research and extension in human and natural resources
d. Awareness of Samoa and the Pacific

## Effectiveness

5. What services/programs does your division provide that affect: (must respond to all areas).
a. Academic/Education? Nurse Aide program, Practical Nursing \& Registered Nursing Programs
b. Staffing? N/A
c. Technology (high or low tech)? High Technology
d. Facilities? M-9 and M-10 with space limitation
e. Budgeting? Funds from ASCC Nursing, CSBG, DOI, scholarship funds for nursing students from ASG DOE to fund personnel, office and medical supplies, training equipment, online testing and assessments.
f. Other Resources? NCLEX Computerized testing, online assessment testing
6. How is feedback from internal/external stakeholders used to make changes or improvements?
(e.g. Advisory Council Members)
a. What other methods (data, reports, memo's, etc.) are used to make changes to improve your division? Data of incoming and outgoing students, NCLEX pass rate to provide licensed nurses to LBJTMC and DOH/PH, memos to healthcare agencies to provide scheduled clinical practicum, required changes to curriculum.
b. Identify the changes or improvements made as a result of feedback or methods used? Total of credits for all programs reduced due to feedback from curriculum and assessment committees as well as the ASHSRB that accredits the nursing program.
c. How are these changes communicated to internal/external stakeholders for quality assurance? Through meetings and memos.
7. How do you evaluate your services? Services are evaluated through student s' performance by nurses in various units and departments.
8. How will your division use program review results to evaluate your program or services? The program review will be used to evaluate faculty and students' performance, the NCLEX pass-rate and employment status
