ACCREDITING COMMISSION FOR
COMMUNITY AND JUNIOR COLLEGES

The story of an institution is the story of the people, places, and communities that serve its students. Conversations about student success often focus solely on graduation rates or other benchmark data that can obscure the true impact that institutions, programs, and people have on the human beings served. [ACCJC On The Move](#) is about our journey to understand the distinct missions of the 137 institutions ACCJC serves, and the promising impactful practices changing lives inside and outside the classroom.

This week we are pleased to feature **Woodland Community College**! Please take a look at the excerpt below, and check out www.accjconthemove.org for the full featured article.

If you have not already done so, there is still time to register for the **2024 Partners in Excellence Conference**. Details about the program and registration are available below. We hope to see you next week!

Woodland Community College

Woodland Community College (WCC) is a California public community college serving nearly 7,000 students across three campuses. Its service area spans three counties, with a main campus in Woodland, California, and two additional campuses in Lake and Colusa counties. WCC's mission and values center around students, equity, and community, and the course and program offerings at all three campuses provide opportunities for degrees, transfer, certificates, and community building.

One of the more unique programs at WCC is the newly created Environmental Technology - Drinking Water and Wastewater Technology Program at the Lake County Campus. The college offers a certificate and associate of science degree designed to equip students with the knowledge and skills essential for a career in environmental management.
